Please ensure that your plumbing system is adequate and that you have sufficient space to complete the installation.

We recommend that you employ a suitably qualified professional to complete the installation of your new DADOquartz® bath. We cannot accept responsibility for poor or incorrect installation. Please keep these instructions in a safe place for future reference.

## What is DADOquartz®?

Mined from the Southern African earth, DADOquartz® material is created by combining Quartz ore and other natural minerals. Quartz is a noble variety of silica which gives DADOquartz® its alluring and wellness characteristics.

DADOquartz® and our unique manufacturing process gives our products exceptional strength, hardness and distinguishing longevity. DADOquartz® material is undoubtedly "THE WORLD'S MOST LUXURIOUS BATHTUB MATERIAL".

## DADOquartz® 10 reasons why

### 10 Reasons why DADOquartz®

- Lifetime Warranty
- Natural Satin Beauty
- Heat Retention
- 100% Solid Throughout
- Non-porous: Stain Resistant
- Scratch Resistant: Easy Maintenance
- 100% UV Resistant: No Discolouring
- Extreme Tolerance
- Bacterial Growth Resistant
- Easy to Clean

## Installation Instructions

Please read the instructions carefully to ensure the best results and avoid damage or injury.

### Before Installation. You will need:

- We recommend that our products must be installed by a certified professional only.
- Adhere to all instructions and plumbing codes, laws and regulations.
- The installation should be done by a minimum of 2 people as a safety precaution.
- For the best results, the floor must be level and the wall must be square with the floor.
- To protect the unit during installation, we recommend that you lay a piece of cardboard on the bottom of the bathtub.
- Remove the unit from its packaging, before disposing of it, inspect the unit to make sure it is in good condition.
- Should inspection reveal any damage or defect, immediately contact us and do not continue with the installation. Refer to the warranty, shipping and returns terms on the website ([www.dadoquartzbathware.com](http://www.dadoquartzbathware.com)). Make sure to adopt the proper posture when lifting the item.
- Place the item in the bathroom before starting work.
- We recommend that the product protection remains on the bathtub until all construction is complete.
- Verify that all dimensions are the same as on the item prior to installation.

## Installation

- Ensure that the drainpipe is thoroughly cleaned and clear of debris before the bathtub is placed into position and that the waste hole is positioned correctly.
- Before the bathtub is fixed to the floor ensure that the bathtub waste and the drainage pipeline up.
- Make sure all the surfaces are dry and stable before installing the bathtub, this will ensure durable adhesion.
- Mark an area with tape on the floor where the bathtub is going to stand according to the dimensions of the bathtub. Please visit the websites [www.uliabathware.com](http://www.uliabathware.com) or [www.sirenebathware.com](http://www.sirenebathware.com) and download the specification sheet for your specific bathtub model.
- Position the bathtub and connect the waste, use a spirit level to ensure that the bathtub is level on all sides.
- Fill the bathtub with water, let the water run through the waste and check for leaks. Note that running hot water through the integrated overflow will assist in removing any dust that may still be trapped inside.
- Apply a suitable adhesive sealant around the base of the bathtub to ensure that the bathtub does not shift.

Please inquire from your Retail Dealer for the suitable Pop-up drain that we supply.

## Safety Instructions

- To reduce the risk of injury, do not permit children, elderly and handicapped individuals to use the unit unless they are closely supervised at all times.
- Use this product only for its intended use of bathing.
- Please enter and exit the bathtub carefully, and always ensure that you have at least one hand holding on securely.
- Never drop or insert any object into the overflow or drain openings.
- Do not operate electrical appliances while in or within 5 feet of the bath.
- Water level should not exceed the lowest edge of the overflow.
- The water in the bathtub should not exceed 40 degrees Celsius (104 degrees Fahrenheit). Water temperatures between 38°C (100F) and 40°C (104F) are typically considered safe for healthy adults. Prolonged immersion in hot water may produce hyperthermia, which can result in the danger of drowning.
- Lower temperatures are recommended for extended use, exceeding 10-15 minutes, for children.
- Exposure to very hot water has the potential to cause fetal damage during pregnancy.
- Persons that suffer from obesity or persons using medication, that may cause drowsiness, affect heart rate, blood pressure and circulation, should use extra care and consult with a physician if unsure.
- The use of alcohol, drugs or medication can greatly increase the risk of fatal hyperthermia.

## Maintenance and Care

- After installation, wash the item thoroughly with warm soapy water to remove any dust and marks left behind after delivery and installation.
- Never expose the products to harsh chemicals such as petroleum-based products, including paint removers, oven cleaners or other solvents. Note that most personal hygiene products and cosmetics will not damage the surface.
- For everyday we recommend using multi-purpose bathroom cleaning products.
- Do not use highly abrasive products or cream cleaners.
- Do not use products that contain trichloroethane or methylene chloride, such as paint stripper, as these may permanently damage the item.
- Do not cut or chop/knock directly on the item surface as it may cause chips or even cracks.
- Should you ever encounter a scratch or chip on the surface it can, in most cases, easily be fixed by following the Repair Instructions.
  - For Matte finish first use a 220-grit wet/dry sandpaper followed by a 440 grit.
  - For Polished finish first use an 800-grit wet/dry sandpaper followed by a 1,200 grit and then polish.
  - Apply with water and gently sand out the scratch.
  - Refer to our Repair Video for directions and assistance to repair severe chips or scratches. Upon request we will send a Repair kit.
- For additional technical support please contact your Dealer or us directly.
